Re: Yuval Aviv

In answer to your request I can confirm the following information:

1. Yuval Aviv does not work and has never worked for the Intelligence Community of the State of Israel. Furthermore, He has never been attached or connected to it.
2. The only connection he has had to security work - in an official capacity - was (except his regular army service, which he completed at the rank of Sergeant) - working as a junior security officer for "El-Al" in New-York, in the years 1973-1974.
3. His work in that capacity was terminated at the initiative of the employer because of unsuitability resulting from negative character traits. During the course of his work Yuval Aviv was found to be unreliable and dishonest.

According to our information - which was brought to the attention of the U.S. authorities - Aviv has been involved during the years (after being dismissed from "El-Al") in various acts of fraud and impersonation.

Sincerely,

Yigal Carmon
